How Do I Qualify?

Many children who qualify for CHIP come from working families. Depending on your income and family size, your child may qualify, too. For example, a family of four earning up to \$60,000 may qualify (see chart).

In addition, children must be:

What happens next?

Once you submit your application, a CHIP representative will contact you within two weeks to help determine if your child is eligible. If you are approved, your child will be covered for 12 months at a time.
